EXPERIENCE

The Iron Yard, Durham — *Python Data Science*

MARCH 2016 - JUNE 2016

- Constructed a fantasy-football analytics tool which projected player scores on a weekly basis, using data obtained from an API and run through a linear-regression predictor algorithm.

- Built a wide variety of applications utilizing Python, Django, JavaScript, AJAX, JQuery, SQL, and various public modules such as Scikit-learn, Pandas, NumPy, SciPy, MatPlotLib, Seaborn.

- Coordinated with others on group projects ranging in size and scope, utilizing Scrum agile software development strategies via Trello, communication tools like Slack, screen-sharing services and in-person paired-programming.

The American Institute of CPAs, Durham — *Lead Advisor*

SEPTEMBER 2012 - FEBRUARY 2016

- Communicated with members by phone, email, chat, and fax. Assisted with technical support for web-based self-study.

- Coordinated intra and inter-departmentally to resolve member issues and improve client experiences.

- Trained seasonal temporary employees and new full-time hires, volunteered as mentor for new-hire mentorship program.

EDUCATION

The Iron Yard, Durham — *Python Data Science Certificate*

MARCH 2016 - JUNE 2016

UNC Wilmington, Wilmington — *M.A. European History*

JANUARY 2010 - MAY 2012

Lake Forest College, Lake Forest — *B.A. Psychology*

AUGUST 2003 - MAY 2007

SKILLS

Python - Proficient
Django - Proficient
HTML - Experienced
CSS - Experienced
REST - Experienced
SQL - Experienced
Scikit-Learn - Experienced
Pandas - Experienced
JavaScript - Experienced
Java - Novice (but excited to learn more!)
